

Loss Control Services

In order to help members develop and implement proactive safety and loss control programs; MEGA provides **free** access to the following services:

- **Safety Management Consulting** – Our loss control professionals will assist members in establishing programs that help prevent injuries by developing:
 - ✓ Comprehensive Formal Safety Programs
 - ✓ Written Policies and Procedures
 - ✓ Guidance in Establishing Safety Committees
 - ✓ Return to Work Programs

- **Onsite Safety Services** – MEGA Loss Control Consultants will visit your worksites to provide guidance on operational safety issues. Onsite services include:
 - ✓ Hazard Analysis/Work Observation
 - ✓ Safety Inspections
 - ✓ Technical Problem Solving
 - ✓ Ergonomic Evaluations
 - ✓ Major Incident Investigation

- **Onsite Safety Training** – MEGA will provide management safety training as well as “Train the Trainer” programs. These are designed to assist members in establishing internal safety and injury prevention training programs. In addition, we will provide training to the appropriate contact in claims management and recordkeeping. Training subjects include:
 - ✓ Supervisor Safety Training
 - ✓ Hazard Analysis
 - ✓ Accident Investigation
 - ✓ Injury Management
 - ✓ Using the Internet Claims Edge (ICE) Database
 - ✓ Custodial Safety
 - ✓ Trainings are also held regionally throughout the year

- **Data Reporting and Analysis** – MEGA will provide members with injury data to assist them in making informed operational and business decisions. Items provided are:
 - ✓ Safety and Workers’ Compensation Information
 - ✓ Member Specific Injury Data
 - ✓ Report Design to Accommodate Specific Information Needs
 - ✓ OSHA Compliance

- **Safety Library and Online Training** – Members have access to our extensive training library. The library features:
 - ✓ Over 6,000 Titles Covering Various Topics
 - ✓ Online Training Courses
